

Video Book Review

The best way to promote your book is to get people talking about it, discussing it, and sharing it. The easiest way to combine all of these is to have a video book review on YouTube where popular BookTubers talk about your book.

FORTHRIGHT OUTSOURCING has partnered with the popular [Discourse](#) YouTube Channel.

[Discourse](#) provides in-depth reviews, book recommendations, and a good laugh. They have a passion for books and love sharing that passion with the world.

A Video Book Review is a great way to inform potential readers, reach a new audience, and an exciting way to get feedback about your book.
